

EU CDM SEMINAR

CDM@AMS 'LOCALLY IMPLEMENTED' 18nov11 | Schiphol HQ

On target & as agreed in our MoU of October 2009, as of 17 November 2011 CDM@AMS has reached "locally implemented" status by sharing all five key CDM milestones! To share this landmark & to offer an alternative opportunity to share 2011 CDM best practices [in absence of Ectrl arrangements], we host a EU CDM seminar.

When: 18 November 2011, 9.30 till ~16.30 CET

Where: Schiphol HQ, Auditorium, 5 min from Terminal [see instructions]

Who: CDM Managers, Directors & Experts, Associations, Ectrl, SESAR JU, EC, Aviaton Press, Industry

You are personally invited by the CDM@AMS team for this one off event

RSVP to CDM@schiphol.nl by **November 15**; also to request remaining speaking opportunities or other info

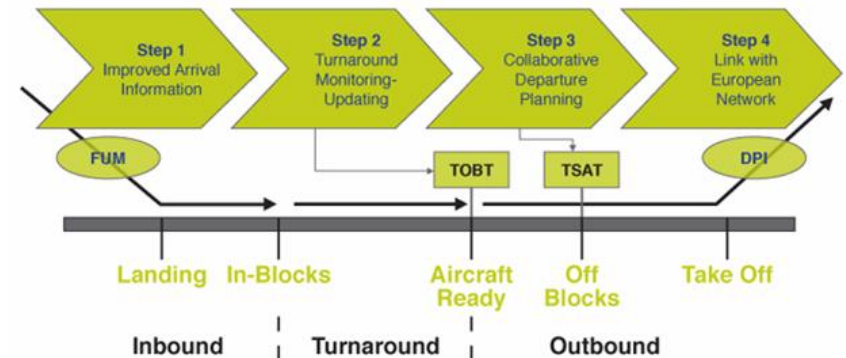

CDM Collaborative Decision SCHIPHOL

* Speaker to be confirmed

Objectives of EU CDM SEMINAR

- Share 2011 best practices
- Guide CDM Teams in “start-up” phase
- Avoid making same mistakes
- Update on key developments
- Networking with CDM peers
- Identify issues “mature” for EU harmonisation
- Stress need for continuation of CDM Arrangements, by Industry Associations with support of Eurocontrol CDM Team & NM

Wat is Collaborative Decision Making (CDM)?

De groei van het luchtverkeer en de toenemende complexiteit maakt het steeds moeilijker om het vliegverkeer op luchthavens op een efficiënte wijze af te handelen. Bij de afhandeling van vliegtuigen zijn veel partijen betrokken: de luchthaven, de luchtverkeersleiding, luchtvaartmaatschappijen en afhandelaren. Ieder van deze partijen heeft al veel maatregelen genomen om het eigen proces zo efficiënt mogelijk in te richten. Verdere verbetering van dit proces is alleen mogelijk als ketenpartners nog meer gaan samenwerken. Door operationele informatie met elkaar te delen kunnen gezamenlijk beslissingen worden genomen over de afhandeling van het vliegverkeer. Daardoor wordt het mogelijk om in een vroeg stadium in te spelen op veranderingen in de operationele situatie, bijvoorbeeld vertragingen of speciale weersomstandigheden. Deze manier van werken heet Collaborative Decision Making (CDM) en is ontwikkeld door Eurocontrol.
